Resume Our Labors

Brothers, Companions, and Sir Knights, I hope you all have had an enjoyable Summer! It is nearing the time for us to resume our work in the quarries and I personally am looking forward to it. Of course with the beginning of every Fall comes the period for our Annual Visitation cycle; ours will be held 23 Sept 15. This year, the GHP and MIGM, have laid out a new plan for our Visitations. Each of the various local YR Chapters/Council will have a combined meeting, but will open and close on either the RAM or Select Master and their inspection will be on one of the opposite degrees. This year we will be opening and closing on the Council and our inspection will be on the MMM. It was decided to take this path as we have candidates in waiting and felt this was the best way to get them on the path. Accordingly, we will need to have a couple practices before both events. I am looking for help with the visitation, as we have not had a regular turnout and need companions to fill the roles for the Council opening. Please contact me if you want to take on a part.

Other News

This Summer the three Grand YR body heads held a series of Townhall sessions at each of the local bodies. These were very informative meetings that provided some great insight into the "pulse" of the Rite within NH. The minutes of the meetings are being consolidated and the three Grands plan to address the various areas. They also plan on having another series of Townhalls at a later time to go over the progress that has been made. Look for more to come!

There will also be future Instructional sessions held in the next few months. These will continue where the

Conventicle and Chapter/Council of Instructions left off.
Watch for further details as they become available.

One last thing! If you have not had a chance to see the new NH York Rite Page, I suggest you take a look. Each Grand body has a page with the latest announcements (of which there are quite a few for the upcoming year) please take some time to take a look (<http://nyorkrite.org/>).

Godspeed,
Patrick "Sully" O'Sullivan
HP, IM, and EC
